

NEWCO

ENTERPRISES, INC.

Introducing the CX-3 pod brewer solution from Newco Enterprises - a leader in office coffee technology.

The CX-3 is your personal barista for specialty coffee drinks in the workplace. Enjoy delicious coffee, Latte's, Cappuccinos and more from single serve pods blended with soluble milk and chocolate powders. CX-3's unique and simple brewing process delivers coffee house quality drinks in under 1 minute. There's never a reason to leave the workplace for great tasting coffee again.

Pods are freshly ground coffee enclosed in individually wrapped filter paper. Tear open one of our sealed gourmet pods and immediately experience the wonderful coffee aroma that you simply cannot get from a sealed plastic capsule. Pods allow for the best extraction possible because wonderful aromatics and dissolved coffee solids are allowed to pass to your cup.

Features include:

- Cup sizes: 8oz, 10oz, 12oz
- Programmable brew strengths
- 94 pre-programmed drink recipes
- Specialty drinks – Cappuccino, Latte, Mocha, Mochaccino, Hot Chocolate, etc.
- Power save mode
- Hot water option
- Quiet brewing and ejection of pods
- Direct water line plumbed

Did you know how sustainable pods can be?

- By using pods, there is an 85% reduction in landfill impact compared to most other systems.
- Recycled coffee grounds are rich in nitrogen which makes them a "green" composting material.
- Even if you don't recycle your spent pods, they will still break down within 90 days in a landfill.

CX-3 Specifications:

Dimensions: 17.8" H x 19.4" W x 19.3" D

Electrical: 120V ac

Plumbing: 1/4" plumbed cold water

Your Coffee-Break Will Never Be The Same
