

PENTAIR *Water Filtration for your Office*

EVERPURE®

Ever wonder what's in your office tap water?

Not all water is the same! In fact, water quality can differ by neighborhood, by building and even by floor. So how can you make sure your office water and coffee are clean and safe?

Install an Everpure water filter on your coffee brewer or bottleless cooler!

Filtration Facts

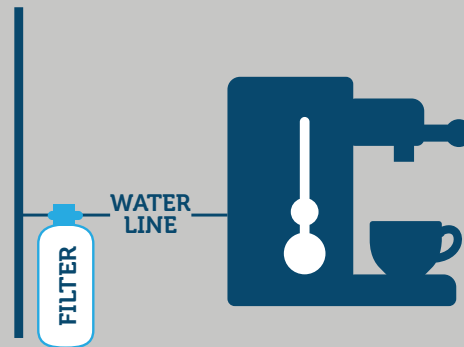

- Eliminates foul odors & taste.
- Reduces impurities & water contaminants.
- Elimates harmful cysts & bacteria.
- Our filters are NSF & ANSI certified.

How does it work?

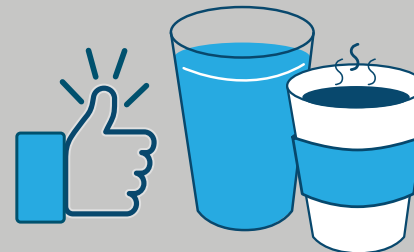

Our water experts will consult with you and build up a filter program around the best solution for your office

Our Certified Technician will then install the filter on your existing water line.

Enjoy cleaner, healthier, refreshing water and great tasting coffee. After all, coffee is 98% water!
